EXPERIENCE

True Data Software   Pune, India

Full Stack Developer Intern (Remote)   *August 2024 – October 2024*

- Worked on an Smart Customer relationship management System using Vite, and Firebase to handle management of leads, and deals for multiple clients.
- Worked on an ESD Dashboard for real time fetching from Raspberry Pico board using Wiznet W5500 Ethernet to be used by multiple clients.

iNeuBytes   Telangana, India

AIML Intern (Remote)   *May 2024 – June 2024*

- Worked on 3 Major tasks during the internship
- Task 1 - Trained a Random Forest Classifier and Ridge and Random Forest regression on a student performance prediction task to predict possibility of student moving for Higher studies. Also performed K Means clustering for Anomaly detection and achieved a silhouette score of 0.27. Achieved an MAE of 0.36 and an MSE of 1.87
- Task 2 - Trained a Convolutional Neural network and a VGG-16 architecture on MNIST Dataset
- Final Project - Naive Bayes Classification of Twitter Dataset. Trained Naive Bayes Classifier to achieve an accuracy of 87.36%

ISFCR , PES University   Bangalore, India

Research Trainee   *May 2024 – June 2024*

- Researched on Throughput prediction in Wireless IEEE 802.11 Networks using Transformers
- Trained a HuggingFace transformers and fine tuned it to predict the throughput of IEEE 802.11 Dense WLAN Deployment using TabTransformers and achieved a State of the art accuracy of 94%

EDUCATION

PES University   Bangalore, India

Bachelor of Technology in Electronic & Communication Engineering, GPA - 7.20/10.00   *2021 – Present*

Sri Chaitanya PU Collegel   Bangalore, India

State PCMB (Physics, Chemistry, Mathematics, Biology) - 99%   *2018 – 2021*

PROJECTS

Prediction of Handover performance in 5G Cellular Networks

An approach to pre-emptive time series prediction of cellular handover failues on a synthetic dataset using LSTM and other models.

Multilabel Disease prediction using Ensemble Modelling

Trained a SegNet & a U-Net Model alongside VGG-16, CNN models to preemptively predict Diseases.Finally, ensembling all the models together to optimize the accuracy and performance and thus enabling faster disease prediction.

Hate Speech Detection using NLP - Deployed on IBM-Z IBM-Z Datathon 2023
- An approach to sentiment detection on twitter tweets.
- Deployed the model on IBM-Z Linux0ne Instance.
- A blog regarding this has been written here

Web based escalation system Nokia
- Working on a web based system to escalate service provider and peer issues to third party vendors.
- Used Next JS as frontend and backend, and Microsoft Azure AD for authentication.

Smart CRM SaaS Tool True Data Software
- Engineered a comprehensive CRM for multiple clients to handle different leads, deals and organizations
- Used Express JS backend and React for frontend, also used Firebase for Authentication.

Smart Ryde Application
- Working on a full stack Expo application that will be similar to Uber for booking cabs, rentals and more
- Using React Native for the frontend, Stripe for payments and Google Maps APIs for maps and other features.

AWARDS AND SCHOLARSHIPS

- **Second Place** out of 800+ teams at **IBM-Z Datathon 2023**
- **DAC Scholarship Award** from **PES University** for securing CGPA of 7.5+ in 1st semester.

SKILLS

Languages: Python, Java, C, C++, MySQL
ML/Stats: PyTorch, Tensorflow, HuggingFace, NLTK, pandas, NumPy, scikit-learn, seaborn, matplotlib
Artificial Intelligence Techniques: Deep Learning, Few-Shot Learning, Language Models, Natural Language Processing, Graph ML
Development Frameworks/Tools: Git, VS Code, Flask, Next.js, React.js, Linux Systems, IBM-Z, GNS3 Simulator, React Native

SERVICES AND CLUBS EXPERIENCE

Club Head at QForest Bangalore, India
PES University *Feb 2023 – May 2024*
- Conducted a comprehensive workshop titled 'Introduction to Quantum Computing," educating 90+ participants on fundamental principles and practical applications.
- Organized a 3-day online workshop at PES university, handling both operational and organizational tasks.
- Organized a 24-hour national level hackathon, Graviton 2.0, at PES University on April 6-7, 2024. Developed Strong Communication skills and handled various roles during the hackathon

Outreach Head at Jnaanada, Sanskrit Club Bangalore, India
PES University *Jan 2024 – Present*
- Executed comprehensive marketing campaigns from January to May 2024, leveraging social media and email marketing; boosted event attendance by 40%

Sankethi Head at Linguista, Language Club Bangalore, India
PES University *Feb 2024 – Present*
- Organized and tutored several learners to teach Sankethi language.
